

CLAIMS

1. A rewritable and erasable writing sheet comprising
a base film, and
5 a rewritable and erasable information recording layer formed on the base film,
the information recording layer comprising a mat material composed of silicone
particles, and a release material.
2. A rewritable and erasable writing sheet according to claim 1, wherein the particle
10 sizes of said silicone particles are from 1 to 3 μm .
3. A rewritable and erasable writing sheet according to claim 1 or 2, wherein said mat
material is present in an amount of 3-10 wt% based on the weight of the information
15 recording layer.
4. A rewritable and erasable writing sheet according to any one of claims 1 to 3,
wherein said mat material is partially exposed at the surface of the information recording
layer.
- 20 5. A rewritable and erasable writing sheet according to any one of claims 1 to 4,
wherein said release material comprises a polymer with long-chain aliphatic groups.
